

Tamir Chagal

Partner

+972 74 7580480

tchagal@sullivanlaw.co.il

Tamir advises various high-tech companies, ranging from software companies (such as mobile and other online platforms) to those engaged in the biotech and medical devices industry. Tamir also provides ongoing day-to-day legal advice to the department's clients, from the incorporation stage until maturity and any "exit."

Tamir focuses on negotiating commercial transactions and in drafting complex agreements related to investments, corporate governance, intellectual property-related transactions (such as software licensing), services and R&D agreements, and international commercial transactions.

He also advises start-ups, including with respect to incorporation and unique commercial agreements, and in providing legal advice to officers and directors.
